G21-2024 - Feature #1286

Feature # 1318 (Resolved): UML

Develop Skeleton Code For UML Team

12/13/2024 12:44 PM - Htar Aung THET

Status:	Resolved	**Start date:**	12/12/2024
Priority:	High	**Due date:**	12/19/2024
Assignee:	Satvik Reddy KONDA	**% Done:**	100%
Category:		**Estimated time:**	2.00 hours
Target version:		**Spent time:**	0.00 hour

Description

After completing the UML diagrams, the team needs to translate the design into skeleton code. Focus areas include:

Define Structure: Create the basic file and folder structure based on the UML design.
Implement Classes: Add class definitions with methods and attributes as outlined in the class diagram.
Stub Functions: Include placeholder functions for key workflows to match the sequence and activity diagrams.

Subtasks:

Feature # 1277: Create UML Diagrams For UML Team	**Resolved**
