Description This is the first version of our UML, programmers will use this UML to start their code. Once the UML creator finishes, generate the UML graph as Python code, and upload the Python code and the UML Graph to the Files and Wiki page. This will be the first version of UML, which needs to be changed based on code later. UML Leader will be our great Project Leader Eiji! Members: YAHARA Eiji, HAGA Rei, WANG Kaiyuan.
